# Roadmap (Live)

## Phase 1 — The Birth of \$HEARTPEPE

Completed

We launched fair and fast: no presale, no dev bags. The community grew organically on Telegram and X, and initial DEX liquidity was locked — laying a transparent foundation for growth.

## Phase 2 — Expansion & Recognition

Completed

Listings on Coinmun, Coindrizzy, and Coingem increased visibility. Holder count passed 1,000 and our meme contests sparked community creativity and engagement.

## Phase 3 — Heart-Powered Growth

In Progress

We are pursuing CEX listings, launching the limited "Heart Collection" NFTs, and organizing charity donation streams — turning meme energy into real-world impact.

## Phase 4 — The Heartverse

Upcoming

Long-term goals: reach top 50 Solana meme coins, launch the Heartpepe Metaverse Lounge for holders, and host community-driven games and NFT events.
